Subject: Don't penalize sucess.

It is the view of the left, i.e., former President Clinton and former Atny Gen Reno, that sucess is wrong. Such is the basis of the case against Microsoft.

Bill Gates, et al, built a "better mousetrap" and made money due to their superior product. This shouldn't be actionable. Whatever "monopolizing" was done, if it were in violation of law, is a minor matter. Deal with it as a minor matter. Shut out the individual states who are now trying to turn a profit from Microsoft's misfortune.

Please un-socialize and de-politicize the Justice Department.

Thank you very much,

R. G. Montgomery
